Caring for Kids is All We Do.

Pediatric Care

Pulmonary Surgery

The division of Pulmonary Medicine at Children's Hospital of Michigan has a long history of providing experienced care to children and adolescents with pulmonary disorders.

We offer multidisciplinary care and comprehensive diagnostic and therapeutic services for infants, children and adolescent with:

- Asthma
- Bronchiectasis
- Bronchopulmonary dysplasia
- Central hypoventilation
- Chronic and congenital lung disorders
- Cystic fibrosis
- Hemosiderosis
- Neuromuscular disorders
- Obstructive and restrictive lung diseases
- Pulmonary hypertension
- Sleep disorders
- Ventilator dependence

Advanced Diagnostics

- Diagnostic bronchoscopies
- Cystic fibrosis sweat testing
- Pulmonary function testing

Sleep Medicine

Children's Hospital of Michigan's sleep providers use some of the latest techniques and technologies to help infants, children and adolescents begin to benefit from appropriate sleep. Our sleep labs offer the comforts of home with young patients encouraged to bring stuffed animals from home to make their stay more comfortable.

Children with any of the following symptoms would benefit from seeing a sleep specialist:

- Significant snoring
- Sleep apnea
- Insomnia
- Excessive daytime sleepiness
- Unusual movements during sleep
- Excessive leg kicking
- Sleep walking
- Evening leg pain
- Nightmares or night terrors
- Problems with sleep or wake schedules
- Daytime behavior problems
